Metal Spiral Staircase Type “Gamia”

- Strong, hardwearing, easy to build steel spiral staircase kit including landing platform.
- It features a unique threaded adaptor to adjust tread heights.
- Unlike other spiral staircase kits, this allows each tread to be set at exactly the same height for added comfort and safety.
- Available in 3 diameters : 1200, 1400 and 1600mm.
- Universal design allows you to build it with clockwise or anticlockwise rotation.
- Opening size must be at least 50mm wider than the staircase diameter ie 1250, 1450 or 1650mm.
- Kit includes one-piece flexible embossed black Moplen handrail for ease of installation.
- Metal finish either light grey (RAL 7035) or silver grey.
- Anti-slip strips are provided for the metal treads.
- Balustrade spindle spacings’ are less than 100mm, making the staircase safer for children.
- Safety risers are recommended when young children may use the staircase.
- We also recommend customers consult their building control office prior to installing any staircase to check that it fully meets their requirements.
- A complete easy to follow installation DVD is provided.
- Please call or email for design and/or configuration assistance.

Rises and Treads

- The standard staircase fits a floor-to-floor total height of 2110-2990mm with 10/13 rises and 10/13 treads.
- The rise can be adjusted between 210-230mm. The first rise is always 210mm.
- For rises 200-210mm and 230-240mm the balusters can be adjusted during installation.

Total Height	No. of Rises	No. of Treads	
2100-2300mm	10	10	
2310-2530mm	11	11	
2520-2760mm	12	12	
2730-2990mm	13	13	Standard
2940-3220mm	14	14	+1 tread
3150-3450mm	15	15	+2 treads
